Peterson's Christmas Tree Farm - 1120 Darms Ln., Napa

From the President by Ron Dack

Well it is July all ready and it is time to start thinking about our annual pot luck picnic. This year it will be in early August so figure out what home cooked items you will be bringing and let Dianne know how many people you will have as guests. Remember that this is a members function so don't invite your whole neighborhood.

I know this has little to do with the group but since Dawna was hospitalized for an artificial knee infection and under went emergency surgery I have been a little preoccupied with getting her well. I apologize for the newsletter being published later than usual.

I was also saddened to learn that Bob Simmerman's wife had passed. My thoughts and prayers go out to the Simmerman family.

Computer Scams

by **Dylan Williams**

Valley Tech Solutions

255-1585

dylan@valleytechsolutions.com

Dylan Williams whom we missed earlier this year due to a family emergency will be at our Wednesday July 16, 2014 meeting. Dylan may choose to start at 7PM or 8PM so don't be late. In fact if you like to get a good parking place get there a little early and help set up.

Dylan will be discussing computer scams. You know like e-mail scams and stuff like that.

If there is enough time Dylan and his company are involved in the installation of Napa's downtown free wi-fi.

If there isn't enough time I will ask him back to discuss it later.

I know the majority of us have been exposed to computer and e-mail scams but Dylan is up on the latest so this should be a valuable meeting and you should bring a neighbor or friend and give them the opportunity to participate.

If Dawna is doing OK I will be there and I hope to see you there.

(President Continued)

Bob as you know has been a long time member and our Membership Director and official Greeter..

You can reach me at president@nvpcug.org.

Dianne can be reached at prior_di@hotmail.com.

Hopefully in the near future we will have our Treasurer position straightened out. Having been there and still there I know what Roy is going through with family health issues.

It is still unclear if I will be able to attend the July meeting. I certainly want to because Dylan Williams of Valley Tech Solutions will be there to talk about computer scams and if there is enough time I asked him to say a few things about the new wi-fi being installed for downtown Napa that will be free for all to use.

**June Meeting review
by Ron Dack**

June 18, 2014 Maria and Maya walked into our group meeting. They were there as a team sent by T-Mobile. As they got started I couldn't help thinking wow what an awesome dual. They backed each other up and clarified information so well and fast you would think they were professional presenters. I was impressed with their Power Point as well as their knowledge of the subject.

After explaining the varied differences of the phones and tablets they explained what T-Mobile had to offer to customers. I liked the fact they offered free texting in over a hundred countries.

They then proceeded to answer various other questions asked of them by attendees.

All in all I would have to give Maria and Maya high marks for the amount of information they provided for the group.

If you know of someone that has knowledge of a computer related subject please contact me and let me know about it so we can try and get them to do a presentation for the group.
