Review of June's Presentations

By Ron Dack

Last month we were privileged to have **Martin Bell, Internet Annalist, O'Reilly Media**. Martin will be discussing web tracking and information gathering on the Internet. How it is done, what can be learned, and what the data information is used for. How the data is used and how it helps the web site owner.

NVPCUG

Our **July 20, 2016 7:00 PM - 9:00 PM** general meeting will feature **Ray Almodovar** who will be discussing the available services of **NapaNet**.

Ray's presentation will cover **NapaNet's** high speed wireless Internet connections. I personally am interested in the availability of their wireless Internet.

NapaNet has hosted our website "www.nvpcug.org" for many years free of charge for the group.

Their techs have helped me solve many network problems, I have usually been the cause of myself over the years.

Ray will answer questions from the attendees about services available from **NapaNet** and possibly some other tech type questions.

If you have line of sight from your property to their transceiver you can get high speed Internet for a reasonable price.

You could save some money and learn a few things at the same time. So bring a friend and attend this meeting.

Review continued:

Ron Bello and Dylan Williams from **CE-GROUP** 1562 Silverado Trail Napa, CA 94559
(707)257-9701 also 1080C Main Street St. Helena, CA 94574

Ron and Dylan came and discussed available services at **CE-GROUP**.

CE-Group provides IT for business and home. Diagnostics for problems with computers, cell phones, networks, virus removal, general repair of all. They will also backup your system using **Mosey Backup Service**.

They will get your e-mail up and running both on either computers and smart phones.

They also have experts on **Windows**, IOS, OS10, PC's and Mac's. So if you have a problem with any of these things and the group Q&A can't solve it **CE-Group** is the place we recommend you contact.

Due to the sale of **Dick & Sandy Peterson's** home and property **NVPCUG** will be looking for another place to hold our annual picnic and holiday party. **Sharon Wragg, NVPCUG President** has offered her yard as a location for this year's Potluck Picnic.

Because of this every member will have to contact **Dianne Prior, NVPCUG Event Coordinator** to be verified as an active **NVPCUG** member confirm attendees and what potluck food you are bringing before being given the location of the picnic. You can contact Dianne at the July 20th meeting, by e-mail at event_coordinator@nvpcug.org, or by phone at 252-1506.

Let me take the time to say that over the last umpteen years that Dick and Sandy have made their redwood grove available for our picnic and their Christmas Tree house for our Holiday parties they have been warm and generous hosts. I believe **NVPCUG** owes them a great deal and many thanks.

We wish them good luck in their new home and will continue our friendship. As the presiding President during many of our groups use of their property I want to personally thank them for every thing they have done for us.

If you know of a location we can hold our Holiday Party in December this year please let a board member know. also if you know a location we can have next years Picnic let us know also.

Ron Dack, Editor
