### Editors Message

Well July is coming and we still don't have anyone volunteering to do any of the open jobs the group needs in order to keep operating . We suffered a huge blow when Susy Ball decided she could not continue to do the many jobs she held.

I personally want to thank her for all the effort and work she put towards making NVPCUG a value to the many attendees. Thanks Susy. I hope you will keep in touch. Take care, Ron

### July Presenter

Our July presenter is Richard Dowdy from **Captioncall**.

This is a system primarily for those that have a hearing problem.

As the person on the other end of the line speaks their words are displayed on an included monitor.

This system is free to persons that have verification of hearing problems. This means an audiologist, doctor, or authorized medical person.

Whether you have hearing issues or not you won't have a better time to find out about this program. Someday you may need it.
